Warm greetings from UI GreenMetric!

I am writing to gently reiterate our cordial invitation for your esteemed university to partake in the UI GreenMetric World University Rankings, an opportunity to align with 1050 universities spanning 85 countries within our network.

This year, our focal point revolves around "Innovation, Impacts, and Charting the Path of Sustainable Universities." Our intent is to spotlight the endeavors undertaken by universities in nurturing their programs and policies based on both UI GreenMetric and the United Nations Sustainable Development Goals.

Through your active involvement in this ranking, your university will be seamlessly integrated into our global network, which boasts 38 proactive national coordinators from 31 nations across Africa, Asia, the Middle East, South America, and Europe.

In addition to this, your esteemed institution will gain a valuable chance to appraise its sustainability policies and performance, facilitating comparative analysis with other esteemed universities. This exchange of insights and best practices is at the heart of our network's purpose. Above all, this ranking serves as a catalyst for fostering future collaborations among institutions of higher learning, all united by the shared aspiration of crafting a more promising world.

Engaging with UI GreenMetric is a straightforward and cost-free endeavor, as the submission process unfolds exclusively through our online platform. The window for data submission spans from May 15, 2023, to October 31, 2023, at <https://questionnaire.greenmetric.ui.ac.id/> using the following username and password:
